## Summary

---

Full stack developer with expertise in the user interface, testing, and debugging procedures. Having experience in web system design, implementation, testing, and maintenance.

## Skills

---

React • Angular • Flutter • .N • .net core • Spring boot • Django • PHP

## Work Experience

---

### Full Stack Developer

Dec 2021 – present

Suvit Fintech Pvt. Ltd. • Full-time

Surat, India

**Technologies:** React • Socket.io • Node.js • Redux

- Suvit helps customers by reducing their effort and time in the process of manual entry in any accounting software (eg. Tally)
- Worked upon migration of TallyWiz(former brand) to Suvit
- Made application real-time with help of socket.io
- Managed to alleviate performance issues in the application
- Reduced average loading time from above 2 seconds to below 0.8 seconds

### Flutter Developer

Dec 2021 – Apr 2022 • 4 mos

LG CSR's Shabdmitra project • Internship

Remote

**Technologies:** Flutter • Sqlite

- Shabdmitra is a learning aid project developed by IIT-Bombay and LG India(CSR team)
- Developed easy to use and offline android application
- Worked on migration of MySQL to SQLite database
- Worked specifically on making UI intuitive and user friendly

## Projects

---

### UniCollab

Jan 2021 – Apr 2021 • 3 mos

2 coworkers

UniCollab is made for ease of sharing educational resources(like classroom material, upcoming announcements, and assignments) between teachers and students.

### Online Book Service

Jan 2021 – Apr 2021 • 3 mos

**Technologies:** Spring boot • Jsp • Sqlite

Online Book Service allows users to either buy or read or publish books online. It also allows users to search for books. It uses custom Pdfjs renderer to render pdfs.

### Discussion Forum

Jan 2021 – Apr 2021 • 3 mos

1 coworker

**Technologies:** .net core • Sql server • Bootstrap

Discussion Forum provides an interface to discuss any random topic with users of the platform. Users can reply to other users' comments.

## **The Queue Platform**

Jul 2020 – Oct 2020 • 3 mos

**Technologies:** Angular • Node.js • Express JS • MongoDB

The queue platform is a place where people can join the queue of nearby stores for a fee and merchants or store owners can register their shops on the platform. This platform provides people with social distance during these pandemics.

## **TechFest**

Jan 2020 – Apr 2020 • 3 mos

**Technologies:** Python • Django • MySQL

TechFest is a platform where universities can organize their technical festival and students from various universities can participate in the events.

## **Educations**

### **Bachelor's degree: Computer Engineering**

Jul 2018 – Apr 2022 • 3 yrs 9 mos

Dharmsinh Desai University

India

Grade/GPA: 8.9/10.00

Courses in algorithms, data structures, artificial intelligence, machine learning, programming languages, computer architecture, operating systems, databases, theory of computation, compiler design, and many others covering important components of theory, abstraction, and design.
